## Company Energy Policy Statement

---

### Our declaration of commitment

We are committed to responsibly manage and practice energy efficiency throughout all our premises, facility and equipments, wherever it's cost effective. We strive to use energy in the most efficient, cost-effective, and environmentally responsible manner possible.

Under this policy our management will play a key role in support of Client's plan to maximise energy efficiency, cost savings, strengthen competitive position and provide customers with the highest quality service.

Our efforts to reduce energy use will also support our commitment to our client's, employees, the environment and the communities in which we are a part.

### Policy

Our policy is to optimise energy consumption, minimize waste, improve energy-effectiveness, productivity, working conditions and protect the environment. We will work towards continuously improving energy performance.

### Objectives

- *Maximise energy performance, reduce operating expenses and increase our consulting service quality by actively and responsibly managing energy consumption of our client's*
- *Demonstrate commitment to client's energy usage, by close monitoring of his energy consumption and advising techno-economic measures for reducing environmental impacts associated with energy use. Advise the use of energy as efficiently as is practicable.*
- *Compliance with all energy management laws, regulations and Codes of Practice in existing operations, upgrades and new developments.*
- *Operating practices that seek to minimise impacts through works and management practices, continual improvement, training and the use of new technology.*
- *Improve Industry awareness and encouraging the sharing of experiences and expertise*
- *Identify measures to reduce pollution that our energy consumption causes.*
- *Identify & advice to reduce our dependence on fossil fuels with on-site and renewable energy. Endeavor to meet or exceed an energy management target to reduce energy intensity by 3% every year. Work in consultation with Client for improving Energy Efficiency Level.*
- *This Company believes that Energy Efficiency starts with proper training. We will provide adequate training to all of our employees & associates*

*Energy Saving is a team effort !*

*Our Moto – 'Saving Heat and Power'*
